

# Think boldly, Connect deeply.

INITIALIZING: //

[ NAME ] .... CTAC

## 30 years...

30 years of providing complex IT solutions across the public sector provides the kind of wide-ranging perspective needed to boldly think outside the box in meeting our client's missions with impact.

## Who We Are

Over our three decades, CTAC has built a team of people, and a business around them, who know what it means to put the mission first. Our management approach combines deep knowledge of the federal space, application of up-to-date industry best practices and a constantly evolving commitment to technical excellence in order to meet our clients where they are. That means answering the ask and digging deeper. It means showing up and staying connected. It means getting it done and getting it right.

CTAC provides our public sector clients with solutions in five capability areas:

**Cloud:** Design, Migration, Reselling, and Engineering tailored for public sector demands.

**DevOps:** Streamlined processes for efficient software development and delivery

**Cyber:** Accelerating the security data and systems through automation.

**Data:** Insights-driven solutions through visualization, analytics, and machine learning.

**Digital:** Delivering customized digital solutions to drive mission-critical transformation.

## Bettering the lives of millions of Americans

**Health** - Health Case Management, Chatbots, Syndication and UI/UX & Content Management

**Energy** - National Security workloads, Highly Secure Cloud access for cutting edge research

**Transportation** - Big Data solutions for Crash testing and Vehicle Recall systems & Law Enforcement solutions
