- How to obtain a quote for hardware, software, or services
- Policy and procedural information regarding installation, basic warranty, extended warranty, technical support, software support, and other post-delivery issues.
- How to troubleshoot a problematic order

About SEWP

The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced “soup”, provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support – more than 50,000 orders a year.
